

We make house calls everyday!

We work for your success!

We are experienced IT healthcare professionals with clients that include hospitals, labs, radiology, and physician practices.

Klotron's experienced IT healthcare professionals work with **medical practices**, **hospitals**, and **laboratories** across the U.S. helping solve the problems practitioners face today. Our clients come from a multitude of backgrounds and represent healthcare organizations both large and small. Our primary focus is on assisting healthcare providers improve the transfer of patients, resources and information across the domain of care both efficiently and effectively.

We speak healthcare software and can take "ownership" of your software, so you can practice medicine!

Call for a **free healthcare assessment** and find out how Klotron can bring "fresh ideas to your business". 888 556 8766 or helpdesk@klotron.com
